#	Step	Input	Resource	Output	Resource
1	**Preparation**	Information Slide Set	Slides [docs/step1-slides]	Stakeholders	Process director, architects, functional manager, network and traffic personal
		Coordination	Setting up meeting schedules and emails		
2	**Requirement Identification**	Stakeholders	Process director, architects, functional manager, network and traffic personal	Quality Attributes	- See [docs/Non-functionalRequirements.pdf]
		Requirement Documents	Confidential		
3	**Goal Identification**	Stakeholders	Process director, architects, functional manager, network and traffic personal	Sustainability Goal	Sustainability Assessment of Canvas integration at the educational institute. Optimize resource utilization
4	**Method Presentation**	SA Assessment Method Slide Set	Slides [docs/step4-slides]	Expectations from stakeholders	Expectations: - an internal QA prioritization for reflection - how can the evaluation help architects define feature requirements for Instructure (the SaaS provider - in this case SaaS is Canvas) - how can the evaluation help the management define more concrete sustainability requirements for next procurement
5	**Architecture Presentation**	Architecture documentation	Some documents are confidential, we only present the final extracted data in [data/ExtractedDesignDecisions.xlsx]	Sub-set of architecture documentation	- Some documents are confidential, we only present the final extracted data in [data/ExtractedDesignDecisions.xlsx] - See [docs/DecisionDashboard.xlsx]
		Tacit Knowledge	Annotated in the original documents, it became part of the final file in [data/ExtractedDesignDecisions.xlsx] and [docs/arch.pdf]		
6	**Prioritization**	Quality Attributes	Slides [docs/step6-slides]	Prioritized QAs	See Sheet "QAs" [data/results.xlsx]
7	**Identification of Architectural Approaches**	Sub-set of architectural approaches	- Some documents are confidential, we only present the final extracted data in [data/ExtractedDesignDecisions.xlsx] - See [docs/DecisionDashboard.xlsx]	Decision Documents	See [docs/DecisionDashboard.xlsx]
8	**Generation of data for analysis**	Decision Documents	See [docs/DecisionDashboard.xlsx]	Design Decisions and Ratioanle	See [data/ExtractedDesignDecisions.xlsx]
9	**Evaluation of obtained data**	Design Decisions and Rationale	See [data/ExtractedDesignDecisions.xlsx]	Sustainability Impacts and Trade-offs	- For inter-QA trade-offs, see [data/dmatrix.xlsx] - For inter-sustainability dimension trade-offs, see Sheet "Trade-offs with SIS" in [data/results.xlsx]
		Prioritized Quality Attribute	See Sheet "QAs" [data/results.xlsx]		
		Tacit Knowledge	Documented as part of [data/Extracted Design Decisions.xlsx]		
10	**Improve and take action**	Design Decisions and Rationale	See [data/ExtractedDesignDecisions.xlsx]	Updated design decisions	See [data/ExtractedDesignDecisions.xlsx]
		Prioritized Quality Attribute	See Sheet "QAs" [data/results.xlsx]		
		Sustainability Impacts and Trade-offs	- DMatrix, see [data/dmatrix.xlsx] - Sheet "Trade-offs with SIS" in [data/results.xlsx]		
11	**Presentation of results**	All inputs and outputs	All resources	Evaluation Report	Paper
